

RICOH Collaboration Boards

Νέες σειρές Collaboration Boards A series

Η Ricoh σε απάντηση της νέας λογικής που καθιέρωσε η πανδημία παρουσιάζει τη νέα σειρά Collaboration Boards A series

4K UHD Display

- 4K display (3,840 × 2,160) delivers sharp and detailed images.
- Equipped with anti-glare film to suppress the reflection of external light for more comfortable viewing.

Auto input detection

- Connect an external input device and the video signal is automatically detected and displayed.

20-point multi-touch functionality

- Up to 20 simultaneous touch points enable active collaboration.
- Supports major operating systems including Windows, Android, Linux, Mac, and Chrome.

Slim-bezel design

- The stylish and slim design perfectly fits any room.

Powerful audio

- A pair of 15W speakers provides high-definition audio.

Versatile connectivity with front-facing interfaces

- Interface ports are mounted on the front to make it easy to connect an external device.

ENERGY STAR®
Certified

Front-facing hardware buttons

- The hardware buttons are mounted on the front and allow intuitive operation for every user.

RICOH Collaboration Boards
